

# COMP1661 Logbook Upload Template

## 1. Basic Information

1.1	Student name	Myles Findlay
1.2	Who did you work with? Note that for logbook exercises you are allowed to work with one other person as long as you give their name and login id and both contribute to the work.	<b>Name:</b> <b>Login id:</b>
1.3	Which Exercise is this? Tick as appropriate.	1 - Create a PhoneGap App utilizing the Notification API <input type="checkbox"/> 2 - Create a PhoneGap data entry screen RentalZ App <input type="checkbox"/> 3 - Create an SQLite database for RentalZ App <input checked="" type="checkbox"/> 4 - Create Android data entry screen for RentalZ App <input type="checkbox"/>
1.4	How well did you complete the exercise? Tick as appropriate.	• I tried but couldn't complete it <input type="checkbox"/> • I did it but I feel I should have done better <input type="checkbox"/> • I did everything that was asked <input type="checkbox"/> • I did more than was asked for <input checked="" type="checkbox"/>
1.5	Briefly explain your answer to question 1.4 e.g. what you could have done better?	n/a

## 2. Exercise answer

### 2.1 Screenshots demonstrating what you achieved

This is the first screen the user will see when the app is launched. The user will be shown a greeting message along with a group of options that can be tweaked, incl. allowing the user to add a property, and showing all data with the database.

**Figure 1:** RentalZ form

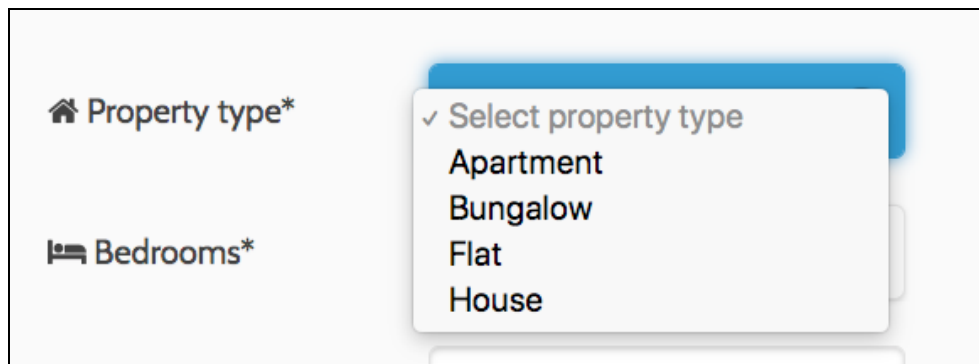

Figure 2: 'Property type' select list

When the user taps the select list for 'Property type', they will be presented with a list of different kinds of properties to choose from (one must be chosen).

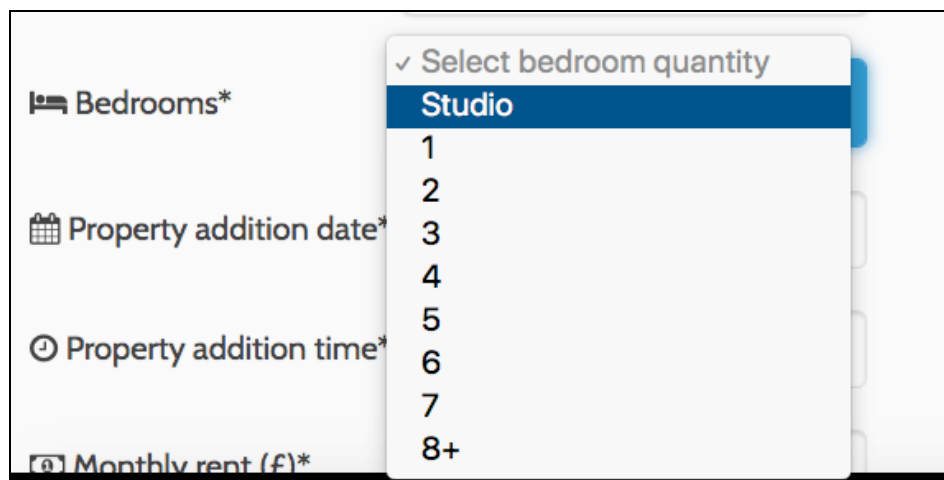

Figure 3: 'Bedrooms' select list

When the user taps the select list for 'Bedrooms', they will be presented with a list of numbers to choose from relating to the amount of bedrooms they want to specify for the property (one must be chosen).

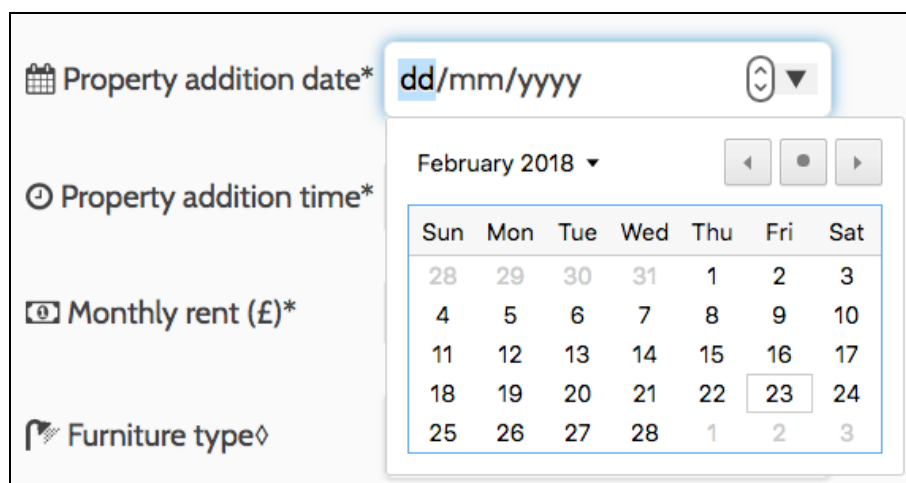

Figure 4: Date picker

When the user taps the input field for 'Property addition date', they will be presented with a DatePicker, which will allow them to choose a date for the property (a date must be chosen).

Property addition time\* 10:15

Figure 5: Time picker

When the user clicks the input field for 'Property addition time', they will be presented with a TimePicker, which will allow them to choose a time for the property (a time must be chosen).

Monthly rent (£)\* 100

Figure 5: 'Monthly rent' input field selected with 'number' type keyboard open

When the user clicks the input field for 'Monthly rent', they will be presented with a numeric keypad, which will allow them to choose a monetary value for the property (a numeric value must be specified).

Thanks to `min="100"` in `<input type="number" min="100" id="monthlyRent" required>` 100 is the minimum value that must be specified.

Furniture type

- Furnished
- Unfurnished
- Part furnished

Figure 6: 'Furniture type' select list

When the user clicks the select list for 'Furniture type', they will be presented with a list of different kinds of furnishing to choose from (this is optional).

Description

Figure 7: 'Description' input field selected

An input field for 'Description' is also available, which will allow them add a description of the property (this is optional).

Reporter name\* Name Surname

Figure 8: 'Reporter Name' input field selected with 'text' type keyboard open

The input field for 'Reporter name' contains a placeholder (Name Surname) informing the user what kind of information needs to be added to that field. I.e. a reporter's name and surname (this is required).

**Figure 9:** User-defined data (prior to being added to the database)

ID	Property Type	Bedrooms	Property Addition Date	Property Addition Time	Monthly Rent (£)	Furniture Type	Description	Reporter Name	Option
1	Apartment	3	2018-02-23	11:15	950	Furnished	Spectacular views	Myles Findlay	<a href="#">Delete</a>

**Figure 10:** User-defined data added to database table.

When the user clicks the 'Add to table' button the data entered by the user will be added to the database and will be shown in a table.

**Figure 11:** 'Reset Form' popup dialog

When the user clicks the 'Reset' button in the top bar, a popup dialog will ask them if they want to delete all the information they had entered. If they tap the 'OK' button, all entered information will be removed and all select lists will be reset to their default values.
